

**LIBERTY  
PULTRUSIONS**

Manufacturer of Engineered FRP Pultrusions

“ Supplier of  
Quality Engineered Fiberglass Grating  
For Over **40** Years ”

## UltraGrate Fiberglass Grating

Liberty Pultrusions is a supplier of molded and pultruded fiberglass grating. We carry a complete line of FRP Grating products for quick shipping. Our fiberglass grating is produced using only the best available manufacturing and quality processes.

### Fiberglass grating is manufactured in three cost-effective resin options.

- General Purpose Fire Retardant Orthophthalic polyester resin (OFR)
- Corrosion-resistant Fire Retardant Isophthalic polyester resin (IFR)
- Premium grade Fire Retardant Vinyl Ester (VFR)

Our fiberglass grating can be manufactured with or without a grit surface. In addition, our molded grating is available in a variety of industry standard colors. Pultruded grating is primarily available in hazard yellow color though custom colors are available with a minimum order quantity. IFR & VFR series are class 1 flame rating 25 or less per ASTM E84 and self-extinguishing per ASTM D-635.

#### Available Panel Dimensions

Thickness	Grid Pattern	Panel Size
1.5	1.5 x 1.5	4 x 12
1.5	1.5 x 1.5	3 x 10
1.5	1.5 x 1.5	4 x 8
1	1.5 x 1.5	4 x 12
1	1 x 4	3 x 10
2	2 x 2	4 x 12

#### Features

- Corrosion Resistant
- Anti-slip Surface
- Lightweight

#### Benefits

- Reduced Maintenance / Replacement Costs
- Enhanced Workplace Safety
- Reduced Installation Costs
